Education

North Carolina State University
B.S. in Computer Science, GPA: 3.7

Expected Graduation: May 2028
Raleigh, NC

Technical Skills

Programming Languages: Java, C, C++, Python, R

Operating Systems & Tools: Windows, macOS, Linux (Ubuntu), Git, VS Code, Jupyter, Eclipse

Work Experience

IT Student Technician

Aug. 2025 – Present

NCSU ClassTech Technician

Raleigh, NC

- Implement on-site and remote solutions for 50+ classrooms and conference rooms throughout campus, resolving AV and PC issues to maintain 99% uptime.
- Efficiently troubleshoot and resolve 15–25 complex technical issues each week, including critical connectivity disruptions and equipment failures, ensuring minimal downtime for professors.
- Deliver on-site and remote support to 100+ faculty and staff, ensuring timely, clear communication and positive client experience.

Data Science Internship

Jul. 2023 – Jan. 2024

Software Intern Under David Kane

Virtual

- Created 75+ free data science tutorials to educate beginners on data techniques utilizing US Census Data and R, resulting in an improved understanding of statistical analysis among over 500 beginner learners.
- Engineered 40+ interactive visualizations and hands-on exercises enabling learners to apply real-world data insights and strengthen analytical skills.
- Analyzed and processed over 10 GB of census datasets while implementing rigorous data-cleaning techniques that improved data accuracy by 25% and boosted tutorial usability for participants.

Projects

Connect 4 Game | Java | Team Project

Apr. 2025 – May 2025

- Designed and implemented core game logic for a two-player Connect 4 game, managing a 8x8 grid and win conditions through object-oriented programming.
- Led project management and collaborated with 3 team members to complete the project within two weeks, using Git for version control and debugging.
- Developed 300+ lines of code and led multiple peer code reviews to ensure robust and high-quality functionality.

Story Point Estimator | Python | Team Project

May 2025 – Jun. 2025

- Performed exploratory analysis and text mining on 2,000+ software issues to improve story-point estimations.
- Applied logistic regression and naive Bayes models on datasets exceeding 500,000 records.
- Partnered with a graduate mentor and 2 peer researchers to validate findings and refine analytical conclusions.

Community Service

Kumon Math and Reading Center of Apex

Aug. 2019 – Jul. 2024

Lead Volunteer

Apex, NC

- Led team of 6 volunteers in assisting with educational activities for 40 students in math and reading.
- Supervised daily operations such as tutoring sessions, resulting in a 35% increase in student engagement.
- Maintained accurate records of student progress and provided regular updates to parents, contributing to a 60% satisfaction rate among families.
- Organized and conducted 100+ workshops and parent-teacher meetings to foster support student development.
